Cost: Certification \$850.00 plus GST & online registration fee

Re-certification (must have certified in 2016 or after) \$750.00 plus GST & online registration fee

Register at: www.cipscanada.com

TPR (Threat Pattern Recognition Use of Force Instructor) – Previously known as Pressure Point Control Tactics (PPCT) The Threat Pattern Recognition (TPR) Use of Force is a system that examines the patterns associated with an assault or a lethal assault and engineers a tactical solution based on science and motor performance. The TPR system embraces the realities of time, and engineers solutions that change tactical timelines. This system is an outcome of Pressure Point Control Tactics' (PPCT's), tactical, legal, and medical research, as well as PPCT's Survival Reactions Time Research.

Program Description

This course is completed in 40 hours over 5 days.

Candidates will learn:

Evolution of Human Factor Engineered System
HFRG Threat Pattern Recognition Methodology
HFRG Design Methodology
HFRG Combat Human Factors
HFRG Combat Use of Force and Survival Principals
HFRG Tactical Handcuffing:
HFRG Escort Position and Joint Lock Control
HFRG Pressure Point Control Tactics
HFRG Defensive Counter Strikes
HFRG Shoulder Pin Restraint System
HFRG Impact Weapon/Collapsible Baton System:

HFRG Weapon Retention/Disarming
HFRG Identifying the Limits of Firefight Performance and the Threat Pattern Recognition Solution
TPR Resistance Movement Time Examples

Note:

- Any previously certified PPCT instructors must complete the entire 5 day course. There are no longer re-certifications available for the original PPCT Instructors course. Members with a TPR Certification from 2016 or after may recertify (4 Days is required for recert)
